#### INDICE DE TEMAS

airways smooth muscle	217
anesthetized cats and rats	217
auditory afferent	369
autonomic evoked potentials	263
autonomic nervous system	263
biomechanics	253
blood transfusion	387
bone	253
calcium	325
cancer induction	359
capillary permeability	349
Chagas' disease	397
chemical and physical inducers	359
chromosome aberrations	359
cochlear nucleus	369
corticosteroid hormone	309
crustacea	201
cyclic AMP	295
delta 9-desaturase	277
Dextran	349
diastolic function	325
dietary energy	253
dietary protein	253
E-C coupling	241
enzymes activities	309
estradiol	287

extracellular calcium	241
fibrinogen	377
fragile sites	359
glucose uptake	211
graft	337
growth hormone	337
histone phosphorylation	377
horseradish peroxidase	369
IGF-I	295
inflammation	349
insulin	295
intracellular calcium stores	229
intraperitoneal blood transfusion	387
Junin virus infection	377
liver microsomes	277
mitochondrial function	309
multivariate analysis	287
myogenic responses	217
myocardial relaxation	325
myocardium	397
nifedipine partial blockade	229
normal cardiovascular responses	263
OGTT	211
opiates	349
oxygen consumption	201
palmitic acid	277
parathion	201
paw edema	349
periaqueductal-gray	369
peripheral glucose metabolism	211
peripherally integrated reflexes	217
pesticides	201
platelet protein kinase	377
potassium uptake	211
primary neuronal cells	295
prolactin	337
protein kinase-C	295
rat hindquarters	229
receptor operated calcium channels	229
red cells transfusion in rats and dogs	387
Rhodnius	405
RNA synthesis	295
sarcoplasmic reticulum	241
sexual cranial dimorphism	287
skin potential	263
skin temperature	263
steroid induced factor	277
streptozotocin-induced diabetes	309

testosterone	287
Triatoma	405
vitellin	405
vitellogenin	405
voltage operated calcium channels	229
X-rays	359
11-deoxycorticosterone	277
2,4 D	201
